First-year CSE student at SRMIST with a strong interest in software development. Currently learning full-stack web development using React and Node.js, and have built a few projects to understand how to design and develop scalable APIs.

EDUCATION

SRM Institute of Science and Technology (SRMIST)

Bachelor of Technology in Computer Science and Engineering

Kattankulathur, TN

Aug 2025 - May 2029

TECHNICAL SKILLS

Languages: C, C++, Java, Python, JavaScript, TypeScript, HTML/CSS

Frameworks/Libraries: React.js, Vite

Tools & Databases: Git, GitHub, Vercel, Supabase, RESTful APIs

CURRENTLY LEARNING

AI/ML, Data Structures & Algorithms (DSA), Next.js, Node.js

PROJECTS

The Last CEO | *React, TypeScript, FastAPI, XGBoost*

[Live Link](#) | [GitHub Link](#)

- Contributed as part of a 5-member team on an AI-powered business strategy simulator where players steer a company through quarterly AI-adoption decisions scored by a live XGBoost prediction engine.
- Led branding and QA, designing the application logo and handling front-end bug fixes across the React interface.
- Won the **Best Project** award at the SRM Insider Community for this project.

Kanban Board | *React, TypeScript, Tailwind CSS*

[Live Link](#) | [GitHub Link](#)

- Built a drag-and-drop Kanban task management tool with customizable columns and an intuitive single-page interface for organizing and tracking tasks.
- Implemented a zero-backend architecture with full `localStorage` persistence, delivering a responsive, mobile-friendly UI.

ChronoKids | *Next.js, TypeScript, Tailwind CSS, Three.js*

[Live Link](#) | [GitHub Link](#)

- Contributed to front-end development on an AI-powered interactive history app for kids that lets players converse with historical figures and explore eras through guided adventures.
- Worked on the app's front-end interface, built with Next.js, TypeScript, and Tailwind CSS.

ACHIEVEMENTS

Best Project Award – SRM Insider Community, for *The Last CEO*. [Post Link](#)

Secured 1st place across all three evaluation rounds and won Best Project in the finals, building an AI-driven business simulator with XGBoost-based forecasting, SHAP explainability, a 3D Three.js office, and a Groq/Llama 3.1-powered AI advisor; led branding, UI design, and frontend polish for the platform.
